

## Pathway and Class Services Pathway

We would like your help determining which groups of patients to offer pathways and/or classes for. A pathway describes which and how patients will routinely connect with the BHC and what services the BHC will offer them. Please indicate the priority you assign for BHC involvement with each of these groups (whether in a pathway, a class, or both). Please give a rating for children and adults.

1	2	3	4	5	6	7	8	9	10
Low			Medium				High		

What Priority (1-10) for BHC Help are Patients With:	<i>Children</i>	<i>Adults</i>
ADHD		
Anxiety or traumatic experience		
Autism		
Child behavior problems		N/A
Chronic pain		
Depression or low mood/energy		
Diabetes or other chronic medical conditions		
Insomnia		
People with problematic social determinants of health		
Substance use problems		
Tobacco / Nicotine use		
Weight concerns		
<b>OTHER PROBLEMS OR HEALTH CONCERNS:</b>
